For centuries, most emotions were viewed as weaknesses, irrational, and something to avoid at all costs. But recent research has proven that emotions can be a powerful tool in shaping our connection to others and motivating us to change. When therapists help clients deepen emotion, they attain better outcomes in therapy.

The Healing Power of Emotional Words - Exploring your mind

The healing power of affective words lies in its high emotional content that is transmitted to the person saying them. And from there stems the healing power. The healing power of affective words is the ability to choose words that are high in emotional content, and something to avoid at all costs. But recent research has proven that emotions can be a powerful tool in shaping our connection to others and motivating us to change. When therapists help clients deepen emotion, they attain better outcomes in therapy.
